### Reiwa 6th year Iwata Precinct Comfortable Living Executive Committee

The living environment has changed significantly in the 37 years since the current nine-town system was established in 1987. In order to build a community that is relevant to the times, the role of neighborhood associations that know the local area well and act on their own will become increasingly important.

Based on the "Iwata Precinct District Pleasant Life Creation Plan...A town where you can live brightly and with peace of mind/A town where you can live an active life throughout your life/A town of coexistence," which was formulated in March 2013, the following plans will be implemented this year as well. Our members will be working on the "Iwata Precinct Plan for Creating a Pleasant Life."
